# OUR MISSION

At Indena we believe that an in-depth knowledge in active ingredients derived from botanicals and the search for excellence at all times are crucial commitments to serving our customers in pharmaceuticals, health-foods, foods and personal care.

Research and production technologies are the main focus of our mission and the way we create a “value difference” for our partners.

And we’ve got more than 90 years of experience to prove it.

## Excellence in botanical derivatives

# 2014
