

Mitidol[®]

GINGER & ACMELLA

Joining forces to help ease aches.

Mitidol[®] is an **innovative new combination** of standardised extracts of *Zingiber officinale* and *Acmella oleracea* that helps manage **aches and related conditions**. The two plants are **used in traditional medicine** for their effectiveness in pain management and inflammatory response. The value of Mitidol[®] has been demonstrated by a human efficacy study that found it useful as a **natural adjuvant** in support for **aches**, limb comfort and in producing a **beneficial modulation of inflammation biomarkers**. Two in vitro studies showed both direct and indirect action on the endocannabinoid system.
