QUERCEFIT®

QUERCETIN PHYTOSOME

IMMUNITY HEALTH DEFENSE: HIT THE TARGET, NATURALLY

Meet the botanical keeper of your daily immunity health. Quercefit® is a flavonol proven to act as a modulator of immune response, giving your immune system a natural advantage. Human studies have shown Quercefit® is effective because of its Phytosome strategy: Indena's proprietary delivery system, able to optimize quercetin bioabsorption, increasing it up to 20 times compared to unformulated quercetin, in line with levels provided by a diet rich in fruit and vegetables. Quercefit®'s top formulation also offers a very good safety profile. Try Quercefit® – quercetin Phytosome – to maintain and support your immunity health defense. And build resilience for healthy living.

100 YEARS OF BOTANICAL EXCELLENCE
