KEEP CALM & RELISSA™ SLEEP WELL AND LIVE BETTER

BETTER DAYS START WITH GOOD NIGHTS: CLINICAL EVIDENCE OF A VIRTUOUS CYCLE

Indena's Relissa™ positively impacts the amount and quality of sleep, leveraging Phytosome™ technology to optimize the bioaccessibility of *Melissa officinalis* in the intestinal tract. What's more, new clinical evidence confirms its beneficial action in balancing moods and contrasting stress generated during the day, to create the conditions for a more serene life 24/7. Not to mention, it's made by Indena with a circular process that starts with organic *Melissa officinalis* grown in Europe and dried with the help of solar energy, and ends with soil improver instead of waste. This makes Relissa™ your new ally for relaxation and peaceful sleep: proved by science and approved by nature.
