Indena's Active Pharmaceutical Ingredients are produced in compliance with cGMPs and in pharmaceutical inspected plants, supported by CTD-DMFs.

HEALTH - FOOD

Indena's ingredients for food supplements are produced under Hazard Analysis and Crytical Control Points (HACCP) and in compliance with Food Safety Modernization Act (FSMA)

GRAS: the product can be used as an ingredient in common food (US)

Please note this documentation is available for various Countries all over the world and hence it may contain statements or product classification not applicable to your Country. The claims made are in reference to ingredients only, hence they do not refer to finished products and they may not comply with Regulation EC n. 1924/2006 or other provisions in place in your Country. These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure or prevent any disease. Marketers of any finished product containing any ingredient are responsible for ensuring compliance with all applicable laws and regulations of Countries where the finished product is sold.

The ingredients described herein are offered for consideration for use in healthfood, common food and pharmaceuticals.

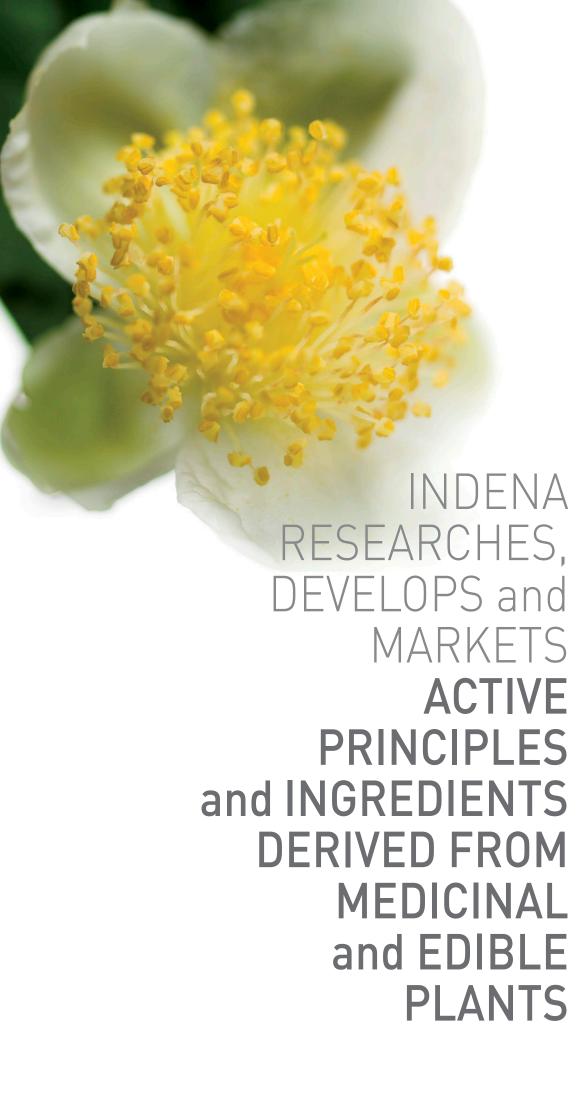

OUR MISSION

At Indena we believe that an in-depth knowledge in active ingredients derived from botanicals and the search for excellence at all times are crucial commitments to serving our customers in pharmaceuticals, and healthfoods.

Research and production technologies are the main focus of our mission and the way we create a "value difference" for our partners.

And we've got 100 years of experience to prove it.
