

ENOVITA®

GRAPE SEED EXTRACT

ALL THE BENEFITS OF GROWING HEALTH AND SUSTAINABILITY

HIGHER IMPACT ON YOUR CARDIOVASCULAR HEALTH, LOWER IMPACT ON THE PLANET

Enovita® is proven to promote blood pressure regulation and have a positive effect on perceived stress and worries. But it's also an example of how circularity can start a virtuous cycle: this natural-origin nutraceutical extract is made at Indena's certified plant in Tours, France by upcycling natural raw materials usually discarded by world-famous winemakers. Thus, "waste" is given a new life, and put through an eco-friendly extraction process implemented to save resources, minimize emissions and use exclusively water as a solvent. And there's more: residual materials are transformed into food oil, fertilizers and energy. Rooting health benefits in environmental awareness.

100 YEARS OF BOTANICAL EXCELLENCE
