CRONILIEF™  
P·E·A INDENA PHYTOSOME™

## SWITCH ON LIFE AND SOOTHE CHRONIC ACHE

Cronilief™ is a nutraceutical ingredient scientifically designed to harness the power of palmitoylethanolamide (PEA) – a natural compound with neuroprotective properties, produced in the body to favor ache modulation by regulating healthy response to pro-inflammatory stress and pain-activated physiological signaling. Thanks to its Indena Phytosome™ formulation, Cronilief™ optimizes PEA's biological performance by enhancing solubility in gastrointestinal fluids and bioabsorption. Developed with strong commitment to sustainability, it is produced in an ISO 14001 and ISO 45001-certified plant where CO<sub>2</sub> emissions are reduced, the energy transition is underway, and occupational health and safety are a priority. Take the natural path toward well-being, day after day.
